

Broomhill Infant School - Nature, Nurture, Knowledge - YEAR TWO - Term 5

How does the garden grow?

Nature:

Walks outside looking at plants.
Time getting fresh air everyday if possible

Experiences:

Clapping for the NHS every Thursday
Doing school work at home and having new teachers

Tinkering: Use junk to make your own habitat.

ELLI: Tortoise
**DON'T GIVE
UP**

State of Being: Scientist, Mathematician and Writer

Book Hook:

Flat Stanley by Jeff Brown

Community Links:

Putting pictures and messages in the window

Ten Questions:

What is a weather vane and how do you make one?

How can I make a seed grow into a plant?

What is a habitat?

What kind of habitat would be best for a polar bear?

How would you describe a Foxes habitat?

What is a microorganism?

What can you tell me about Van Gogh?

Can you draw me a flower?

Can you name a hot country and a cold country?

Can you name 5 animals that can't live in this country? Why?

Skills and Knowledge:

To be able to identify and describe how plants grow and the things they need.

To understand how different habitats provide for different plants and animals needs.

To identify hot and cold places in the world and describe daily weather patterns in the UK.

To sketch using dots and lines to create shading and texture.

To use technology purposefully (to learn).

To look after yourself and your family and be polite and kind.
