

Our termly curriculum planners explained....

Nature - This section tells you how we will use nature and the natural world to help us learn.

Experiences - This section tells you about some of the exciting learning experiences we will have.

Tinkering - Each term we have a tinkering morning. The whole school has a project and we have to work together to design, build, test and evaluate. We are Engineers, Scientists, Mathematicians and Designers.

Elli - Our Elli animals help us think about how we learn. Each term we focus on one.

Wow day - We start our learning with a special day or event. This is exciting and makes us want to learn more.

State of being - This helps us see the purpose in learning and how it relates to real life. For example; Instead of doing some Science, we are being Scientists. This links to our Elli characteristics.

Skills and knowledge - This section tells you about key skills we will learn and knowledge we will be taught. You can talk about this at home and practise some of the skills.

Vocabulary - These are words that we will be learning, exploring and using so talk about them at home.

Community links - This tells you about how we are engaging with and exploring our local community.

Book hook - Each term we will focus on a book which will be a starting point for lots of learning.

Ten questions - These questions will show what we have learnt. They will be used to assess our learning.
