

Broomhill Infant School - Nature, Nurture, Knowledge

Remote learning offer - School is open

In the current pandemic there are several reasons why your child might need to work at home. We will do everything that we can to ensure that their learning journey can continue at home with you.

They are ill!

If your child is ill then we would not expect them to be working at home.

If they have been ill with coronavirus, get better but still need to isolate, we will provide work. We will stay in regular contact and be guided by you.

Staying in touch

We will stay in touch through class dojo and phone to speak with you when children are out of school for long periods of time. Always contact us if you need help, guidance, or just reassurance.

Vocabulary:

Talking and reading with children is one of the most powerful things you can do. We will guide you with vocabulary that children need to use through each stage of their learning.

They have to isolate because of contact with coronavirus outside of school.

If your child is at home and the rest of their class are in school, we will use class dojo to send work. We will send out the weekly plan so that you can plan out activities to suit your family. Each day teachers will send you work, ideas and videos of what is happening in the classroom.

Accessing work and using technology

We are aware that adults are accessing work in a number of ways, including tablet, laptop, phone. We will always endeavour to send work in a way that can be accessed through multiple devices. It is our aim to make learning as hands on and practical as we can using items that you will have in your home. We are sensitive to the fact that many children are sharing technology with siblings and often adults working.

If you have not got access to technology, we will ensure that learning packs are delivered to your home with work for children to complete. We will also provide any materials that you might need to complete the work.
